

Customer contribution for Dual & Multiple Occupancy Developments effective 1st January 2012

Multiple Dwellings – New Connections Only

Connections to a new or existing multiple dwelling development sites are to be charged per the fees in the table below.

The customer contributions for dual and multiple occupancy developments are in accordance with AER (Australian Energy Regulator) Guideline 14. Expressed in a simple form, customer contribution = incremental DUOS revenue less incremental connection cost. Additional cable for multiple dwellings will be charged after 50 metres at \$40.79 (ex GST).

Table 1 Number Dwellings	Customer contribution for 1 'pole to pit' underground service		Customer contribution for 2 'pole to pit' underground services		Customer contribution for 3 'pole to pit' underground services	
	Exc GST	Incl GST	Exc GST	Incl GST	Exc GST	Incl GST
